

April 28, 1931.

Mr. C. A. Engle,
Supervising Engineer,
Indian Irrigation Service,
Atlas Building,
Salt Lake City.

Dear Sir:

RE: UINTAH DIST.

I have your letter of April 27 and would say that my letter of April 22 was merely carrying out my promise over the telephone to Mr. Humpherys to advise him if a request was made for the appointment of a water commissioner for the Uintah Basin.

I note the position set out in the second paragraph of your letter and so far have made no comment thereon. I understand that Mr. B. O. Colton, Jr., whom I appointed under the request of the Executive Committee of the settlers, refuses to accept the appointment but further than this I am not advised.

Yours very truly,

State Engineer.
