May 10th, 1928.

State Engineer,  
Capitol Building,  
Salt Lake City, Utah.

My dear Mr. Bacon:

Mr. Williams, president of the Perry Irrigation Company, advises me that he had a conference with you a short time ago relative to the Thomas Brothers who have been giving us a great deal of trouble during the past few years, and that you suggested that if the court would appoint you water commissioner you would be willing to go in there and straighten them out.

That would certainly be a most wholesome procedure. I hope that I correctly understand you. If you feel that such can be done I would appreciate hearing from you at once and making such suggestions as you may feel necessary in order to work this matter out.

Yours very truly,
