State Engineer,
State Capitol Bldg.,
Salt Lake City, Utah.

Dear Sir;

Boulder

Referring to correspondence in the matter of incorporating the water holdings &c at Boulder, Utah:

You have probably been too busy with details called for by the session of the legislature, just passed, to complete the arrangement of the data for the Articles of Incorporation and the other essentials which were mentioned.

It is desired to have matters so settled that the company can begin operations this season in the way of testing out a water master, the survey and application for reservoir sites &c.

Mr. F. C. Hansen, who is closely connected with the proposed company will visit your office between ~~May~~ April 5 @ 8 to do necessary routine work with you unless you have transmitted the data to me before.

Respectfully yours,

JOHN H. CLARK
