

July 15, 1924.

W. L. Woolf,
Roosevelt, Utah.

RE: DISTRICT ENGINEERS.

Dear Sir:

Inclosed herewith is abstract of the filings on Dry Gulch Creek, North Fork of Dry Gulch Creek, Montez Creek and Sand Wash for your use in distribution of the water of those streams.

With reference to your letter will say that I have taken up the matter of a visit to the Uintah Country with the Governor and I am urging him to make this trip.

Very truly yours,

State Engineer.
