

THOMAS AND SOULE
COUNSELORS-AT-LAW
BOSTON BUILDING
SALT LAKE CITY, UTAH

May 6, 1915.

Mr. T. W. Wenz, Water Commissioner,
Provo, Utah

Dear Mr. Wenz:

Since your letter to us we have made pretty thorough investigation as to the qualifications and desirability of appointing Mr. Taylor as deputy for the upper District on the Provo River. We have not been able to find any opposition to him except possibly from the plaintiff. We have spoken with Mr. McDonald and have written Mr. Willis and Mr. Wahlquist and have heard of no objection from any source. We strongly recommend Mr. Taylor and would be as strongly opposed to the appointment of any one else.

Very truly yours,

THOMAS & SOULE

Mr. T. F. Wentz , C.E.

Provo, Utah.

Dear Sir:-

In re Provo Reservoir Co. vs . Provo City, et al.

Your letter of 23rd inst at hand and contents noted.

I believe that June 1st is none too early for the assistant Commissioners to begin work , as irrigation will have been going on for a month before that time.

The proposed rate of compensation appears reasonable for the class of man desired.

My clients, The Sunrise Irrigation Company are well satisfied with Mr. Taylor. Personally I have perfect confidence in Mr. Call, but some of the members of the company I represent would raise objection. (None of great importance, however.)

I have no knowledge of Mr. Pratt. and know that my clients would not favor Mr. Tanner, if either Mr. Taylor or Mr. Call are available.

Yours respectfully,

Chas. J. Wahlquist ✓
