Gentlemen:

LaRay Sadler called and asked for the water rights that you have. The enclosed proposed determination of water rights book shows the rights on Pages 746, 747, 748, and 750 under Water User's Claim Nos. 1367, 1218, 1366, and 2496. This book has been signed by the court. However, I think you are bound where a right is unperfected to complete and furnish proof of the development.

Yours truly,

Donald Norseth  
Directing Engineer
