February 22, 1989

Mr. Arben Wilkerson
Lapoint, UT 84039

Dear Mr. Wilkerson:

Your attention is directed to a letter from this office dated July 18, 1988 requiring you to repair your diversion headgate. As a result of this order, on September 13, 1988 your headgate was closed and locked because the necessary repairs had not been completed.

On September 14, 1988 an inspection of your headgate was conducted by your Commissioner, and members of this office. At that time it was determined the headgate repairs were not adequate. However, the Commissioner agreed to continue delivering water for the remainder of the irrigation season, with the understanding that prior to the delivery of water during the 1989 irrigation season, your headgate would be repaired to her satisfaction.

Therefore, you are hereby ordered to make the necessary repairs on your headgate prior to May 1, 1989 pursuant to Section 73-5-4 Utah Code Annotated, 1953.

Your commissioner is directed to inspect your headgate for compliance with this order. Water will not be delivered until you have complied with this order.

If you have any questions, call Bob Leake, Area Engineer at 965-9835.

Sincerely,

Robert L. Morgan, P.E.
State Engineer
