	Mosby Irrigation Co.	C/O Lloyd Winward Co. 61 East Main, Vernal, Ut.

DEEP CREEK ASSESSMENT BASIS

1969

At the annual meeting June 3, 1969, the assessment rate was discussed, and it was decided that the committee on the 13th of June would arrive at a basis of assessment taking into count the extra services the Commissioner rendered Mosby Irrigation Company and acting as water master for them.

At the June 13th meeting, after discussing the duties of the commissioner and what services he performed for Mosby Irrigation Company, it was decided that that there were two areas of responsibility on the system: (1) To divide the waters of Deep Creek and in addition, to route the Mosby Irrigation Company water from Logger's Cabin to the Mosby Irrigation Company diversions. (2) To deliver the Mosby Irrigation Company water wherever it was asked for.

On the basis of acting as both river commissioner and Mosby Canal Company water master, it was decided by the committee that Mosby Irrigation Company would pay 75% of the assessment. The remaining 25% would be divided on an acreage basis between the water users. This arrangement would be made for one year only with no prejudice and would be adjusted in 1970 if it was found to be inequitable.

The committee authorized the State Engineer to so make the assessment.
