Dave:

At the Deep Creek meeting there was considerable discussion on the operation of the Blanchard Park Diversion. They apparently feel a lack of direction from you as to the regulation. They have assigned David Murray and Marvin Huber to open the diversion and need direction from you as to when to reduce flow. Would you contact one of these individuals in Lapoint and set up a procedure for handling this matter in 1977.

I will try to drop in and see you on my next trip out.

Yours truly,

  
Donald C. Norseth  
Directing Engineer
