Mr. Hubert C. Lambert, State Engineer
Utah State Capitol
Salt Lake City, Utah

Dear Mr. Lambert:

It is apparent that the ranchers on the Nine Mile Creek Distribution System will not or cannot distribute the water in accordance with the directive of the State Engineer and that of the Court.

The Preston Nutter Corporation, therefore, requests you to appoint a water commissioner to distribute the water and we ask that no limitation be placed on the amount of time spent by him to assure that the Court Decree adjudicating water and the State Engineer's determination of water rights be fulfilled.

We regret that the wanton disregard of our rights and the illegal use of water by upstream ranchers make this action necessary. We cannot suffer more damage to our crops due to deprivation of our water rights.

We thank you for your immediate attention.

Very truly yours,

Preston Nutter Corporation
