Re: Unauthorized Diversion By Jack Wimmer on Argyle Creek

On September 10, 1970 I went to Argyle Creek to investigate a complaint by Henry Mills that Jack Wimmer was making an unauthorized diversion on to Wimmer's property on Upper Argyle Creek. When I arrived there a diversion was being made on to the Wimmer Ranch. This ranch is excess acreage under the proposed determination and at this time has no water. The water was turned back into Argyle Creek at the time of my visit.
