*Ogden River Continuous file*

F. P. Howell  
282 Lomond View Drive  
North Ogden, Utah

Dear Sir:

George S. Alvord requested that I make an inspection in the area covered by the Ogden River Decree right number 121 & 122. The water comes from a series of drains on your property. I find that you are within your rights in denying them the right to enter your property to remove and clean these drain pipes.

There is a question regarding a pumping right from a spring on this property. You must refrain from any use of this water until a water use right has been established with the state engineers office in the State Capitol.

Respectfully,

*J. Floyd Barnett*

J. Floyd Barnett  
Ogden River Commissioner
