Mr. Chad Crosby
Pot Creek Water Commissioner
152 E. 10010
Vernal, Utah 84878

Re: Call for Water by Colorado Users

Dear Chad:

This is to inform you that the Colorado users are placing a call for the water they are entitled to from the Pot Creek system. The runoff has been very limited so the supply of water is short this year.

Attached is a summary of the water that we believe the Colorado users were entitled to for 1988 and 1989, based on the records from the gaging stations above Matt Warner Reservoir and at the Colorado-Utah State line. As you are probably aware, this summary indicates the Colorado users did not receive their full entitlement of Pot Creek water during 1988.

I am requesting your assistance in getting the Colorado entitlement of Pot Creek water released to the Colorado users as soon as possible. If you have questions, please let me know.

Sincerely,

Edward W. Blank
