

September 14, 1965

Mr. David R. Rasmussen
Pot Creek Water Commissioner
Box 161-A, Rt. 1
Vernal, Utah

Pot Creek Cont.

Dear Dave:

In regards to your letter of September 2, 1965, this problem of water releases from Matt Warner Reservoir is getting more complicated than equitable. I believe we can accomplish much more towards solving the problem if we could get together with you and Bob and discuss the situation.

Therefore, we will be in Roosevelt on October 9, 1965, for a series of meetings, and if you could come over with Bob we will discuss this problem.

If this arrangement will fit your schedule, or if it will note, please let me know.

Sincerely,

E. M. Staker
Distribution Engineer
