State Engineer
Capitol Building
Salt Lake City, Utah.

Dear Sir:

I have been using the waters of Crystal Spring and Spring Canyon wash for a number of years. I have fought this case through the Courts of Carbon County and have finally taken the case to the Supreme Court and was sustained in the contention that the water was mine. Mr. Wayman, your representative in this District, is constantly bothering and breaking my ditches, taking water away from me that rightfully belongs to me. I have been informed repeatedly that the State Engineer was coming to fix this matter up. I have waited now for a number of years and all that we have had has been trouble and grief about this water. I would very much appreciate, therefore, hearing from you as to just when this matter is going to be fixed and if not, I would like to know just what conclusion you have come to in the premises. An early reply will be very much appreciated.

Yours truly,

Mary Elegante
