

June 15, 1927.

Mrs. Maria DeMarco,  
Box 27,  
Helper, Utah.

Dear Madam:

RE: PRICE DIST.

Replying to your letter of June 14 I would say that the work in Spring Canyon requires more time than I had figured on and also more careful study in the office after the necessary map had been made. I am pushing the matter all that I can with due regard to getting the situation cleared up for good and hope to be able to let you know definitely before the end of this week.

Yours very truly,

State Engineer.
