

Oct. 31, 1927.

Mrs. L. H. Denney,
Manti, Utah.

Dear Madam;

RE: BOUL CREEK DIST.

With reference to the matters which you brought up during your call at the office this morning I would say that I am writing to Mr. Pace with reference to the Court Order to the effect that he shall install a measuring device. I am of the opinion that I can probably arrange this and I am also of the opinion that this will be of little assistance to you as long as Mr. Hall and Mr. Pace are unable to agree on some competent individual to take care of distribution as water commissioner on Boulder Creek.

Yours very truly,

State Engineer.
