Gentlemen:

The present arrangements between the State Engineer's Office and the Coal Creek Water Users for appointing a commissioner to distribute the waters of Coal Creek are, in our opinion, not adequate. We are, therefore, reserving the appointment of a Coal Creek commissioner for 1958 until \_\_\_\_\_ at which time we would like to meet with all members of the Coal Creek Water Users' Association Committee and the water commissioner.

At the proposed meeting, it is hoped that a plan may be worked out that will better protect your interests and enable all the water users to obtain the maximum value of an organized distribution system.

If you will be unable to attend this meeting, please notify us as soon as possible.

Yours very truly,

Donald C. Norseth  
DISTRIBUTION ENGINEER
