

Orangeville, Utah.
June 22nd 1944

Mr. Ed.H.Watson.
State Engineer,
Salt Lake City, Utah.

Dear Mr. Watson.

In your letter of the 2nd of May, receipting me for my report as water commissioner for the Cottonwood Creek appointed by the board of directors of the Co. that it would be impossible to appoint a professional Engineer to act as such commissioner because of manpower shortage in the engineer profession.

We are wondering if you could recognize our creek with an appointment of a man who would be recommended by our board of directors as has been done before in the past, we would be very pleased if this could be done by your office, at any rate we would not be able to pay an engineer the amount of salary he would require.

Please let me hear from you at the earliest date possible.

Yours very truly.

Secy. C.C.C. Irr. Co.
