Mr. B. L. Mathews
Antimony, Utah

Dear Sir:

COYOTE

Replying further to your letter of June 20, 1940, this will advise that following a very extended and painstaking investigation of the Coyote creek water rights, the conclusion has been reached that a special distribution district will not be created at least this year, since Mr. J. Lerue Ogden, Water Commissioner will take care of the matter in connection with his Sevier river work.

As I understand it, the existent differences have been composed for the time being. I will be glad to hear from you if you have anything to say relating this matter.

Yours very truly,

T. H. Humphreys
