Willard Aug 30 1931

Dear Mr Bacon:

Will You please take time to tell me this, or answer this question? Am I prohibited from using the water from the so called Hubbard Spring Ditch. water, we have used every year for 42 years, to my knowlege and before I came into this family of Hubbards. L. W Hubbard was one of the early settlers here. I only years ago my husband purchased from his father this same property.

We used to have some

cattle that we run
down in the pasture
during the winter and
feed there. After we
had cut the meadow
hay and put it up.
We always gave it a
good watering and
it made good feed for
the fall and part of
winter. I am prohibited
now from using any more
water from Hunting this
hot weather I need
it badly, but as I
cannot use water
that is on my own place
I think Mr. Bacon has been greatly misinformed
If it is the

law, I want to know it; and if water that we have cherished and taken care of can be taken from me and from my land after 48 years of peaceful possession I want to know where one's protection is.

Kindly answer me these questions and

Oblige

Mrs.

Charlotte E Hubbard

Willard

Hubbard Estate Utah

I am speaking only for myself.

Mr Bacon

If You could possibly come out and look this thing over, Mr Welling would gladly bring You out any Sunday that You could leave.

Mr C. R. Welling
126 A Street.

Milton H Wellings Bro.

If I knew You would come I would call C R. by phone and He would bring You out. Very Resp

Charlotte E Hubbard
