

August 1, 1929.

Mr. Louie Galloway,
Roosevelt, Utah.

RE: SAND WASH DIST:

Dear Sir:

At the request of President Smith of the Dry Gulch Irrigation Company, I am hereby authorizing you, as representative of the office, to make a series of measurements of the flow of Montez, Dry Gulch, and Sand Wash Creeks.

The office has no funds at its disposal to compensate you for this work but it is my understanding that the information desired is sufficiently valuable to the Dry Gulch Irrigation Company so that they will remunerate you. This authorization may be of some value and is conditioned on your furnishing this office copies of all measurements which you may make in this connection.

Yours very truly,

GMB/G

State Engineer.
