

July 7, 1960

Mr. Homer Edwards,
Muddy Creek Water Commissioner
Moore, Utah

Dear Homer,

file Muddy Creek

Here are the report forms and the tables you will need for your distribution system. There are enough copies, with these I gave you Wednesday, to give one to all interested parties.

Keep your daily records in this book and send me a signed copy each month. I will meet you Tuesday morning at Spinners Headwater Reservoir about 9 or 10 a.m.

We will go over any other problems about measuring devices, releases and records, etc., you may have at that time.

Thank you for your hospitality and cooperation.

Sincerely yours,

Clarence E. Erickson, Jr.
