Dept. of Natural Resources
Division of Water Rights

Mr. Robert Morgan
Water Engineer

In speaking with Kent L. Jones, where-in I asked for help from the state engineer's office to help control the distribution of the water in Deep Creek, in Tooele County. He suggested to me that I write you a letter requesting your help. I feel that it would be good if a meeting was held as soon as possible in Ibapah, Utah between the state engineers office and all of the water users of Deep Creek in regards to water rights, and controlled measuring devices of the stream.

Your help will be appreciated on this matter as soon as possible.

Thanks

Lyle Bunker
