MEMORANDUM

TO: Bob Fotheringham
Lee Sim

FROM: Gertrudys Adkins GA

DATE: August 29, 2000

SUBJECT: Raft River Priority Schedule

Attached is a copy of the Raft River water rights study. The water priority schedule includes all surface water rights from the Raft River as well as some water rights on the Junction Creek and Basin Creek.

The Water Rights Inform program was used to initially identify water rights by source. Then, Arcview Program was used to identify all water rights within a mile of the source. The search of water rights yielded more than 250 water rights. Each individual water right in the data base query was looked at to determine if it should be included in the report. Groundwater rights were not included in the report. A map of the rights location was developed using ArcView Program. This ArcView project could be accessed from the following file: G:/gert/gpsdata/raftriver/proj1.apr

If you have any questions, please call me at (801) 538-7384.
