RE: Millcreek Distribution System

Dear Water Users:

As you are aware, the annual distribution meeting for the Mill Creek Distribution System was held on February 7, 1985. At the meeting, there was a discussion regarding the need for a commissioner and the basis of assessment on the system. It was resolved that the State Engineer's staff would look into the situation and hold an additional meeting.

This letter is sent to inform you that a meeting of the water users of the Millcreek Distribution System and representatives of the Utah Division of Water rights will be held Tuesday, February 26, 1985 at 7:00 P. M. The meeting will be held at the Grand County Water Conservancy District Offices, South Highway 191, Moab, Utah.

The agenda will include the following topics:

1. Hearing the State Engineer's alternative proposals for assessments on the system.
2. Establishing the basis for assessment for the system.
3. Recommending a commissioner for 1985, if the majority of the users in attendance feel a commissioner is needed.
4. Preparing a budget of salaries and other necessary expenses in the event a commissioner is appointed.
5. Transacting such other business as may properly come before the meeting.

Sincerely yours,

Richard B. Hall, P. E.  
Distribution Engineer
