RE: Mill Creek System.  
Attention Donald C. Norseth,  
Directing Engineer.

Dear Sirs:

We are in receipt of your letter dated September 12 and statement for \$356.12 additional assessment on account of travel expenses Item No. 4. State Eng. Acc't No. 1A.

This matter was presented to our Board of Directors at their regular meeting held October 4 and they took no action pending information from you showing the total amount of travel charged to our Mill Creek System; whether or not all of the water users have paid their first assessment and how the additional assessment has been allocated.

Thank you.

Very truly yours

*Margie M. Shafer*

P. S. I understand we are to receive a copy of report filed by the Water Commissioner for 1983 showing the amount of water diverted through each diversion point, the total flow of the creek, etc. Can you advise when this might be available?
