The State of Utah
Office of State Engineer
Salt Lake City, Utah

Attention: Mr. Wayne D. Criddle
State Engineer

Reference: Ground Water - General

Gentlemen:

We acknowledge receipt of and thank you for the copy of your letter dated June 5 addressed to Mr. Owen C. Court of Waterworks Equipment Company, Salt Lake City.

We are pleased to learn of Judge Hoyt's continued interest in our Low Pressure Line Meters and Irrimeters. The prices of these units as listed in our April 1956 price list are current at this time. These prices you will note, are much lower than those of our standard main-line meters normally furnished for Municipal and Industrial applications. Our Low Pressure Line Meter and Irrimeter prices are based on volume requirements similar to those contemplated by the State of Utah.

If after the State of Utah's meter requirements have been determined, we find that an additional price advantage is available, we will be more than happy to pass this additional advantage on to them.

We sincerely appreciate your interest in Sparling Metering Irrigation equipment and are taking the liberty of enclosing for your information and files, two copies of our new Irrigation Bulletin No. 500 which illustrates and describes in detail, our Irrigation equipment.

Yours very truly,

SPARLING METER COMPANY
