Ivan,

Ray Owens reminded the Division and you and I discussed today over the phone, that the difference between Jim Walker's retirement cost and Ray Owen's (lesser) retirement cost should be paid to Ray in addition to the identical salary budgeted for each of the two commissioners. The Division should continue with this practice annually unless otherwise instructed.

For the Division's documentation, would you please sign and return this note thereby endorsing the above practice?

Thank you!

Sevier River Distribution Engineer
