Re: Morris and Levi Ditch

Dear Floyd:

We have received your letter regarding water rights in the Morris and Levi Ditch. We understand you would like to re-establish the Morris and Levi diversion and take water rights awarded in the 1931 Beaver River Decree under Award 86 through the Morris and Levi instead of through the Barton Ditch. This can be accomplished once the following procedures are completed:

- 1) An adequate measuring device and head gate must be installed on the Morris and Levi Ditch.
- 2) Title must be updated with our office showing to what extent you own the water rights under Award 86 of the decree.

In order to protect your Morris and Levi water rights in the pending adjudication, once title is updated you may want to file an amended Water User's Claim or a Change Application to ensure the record accurately reflects your use of the water.

Be advised that all requirements detailed under the previous correspondence for SEAA 1110 still exist and must be completed.

Please let me know if you have further questions.

Sincerely,

Mike Silva  
Distribution Engineer
