John and Jeri Houston  
PO BOX 914  
Price, Utah 84501

Dear Water Users:

Please be advised that flows within the Price river drainage are less than 94 cfs. Currently water in the Price River and its tributaries is sufficient to fill only 30% of rights in the 1<sup>st</sup> class. At this time your diversions from the White River must be discontinued.

I've included some information regarding declining flows in the White River and other tributaries for your reference. Please call me at (801) 538-7431 with any questions. I'm sure equitable distribution of Utah's water is a concern to both of us and to that end your cooperation is very much appreciated.

Regards,

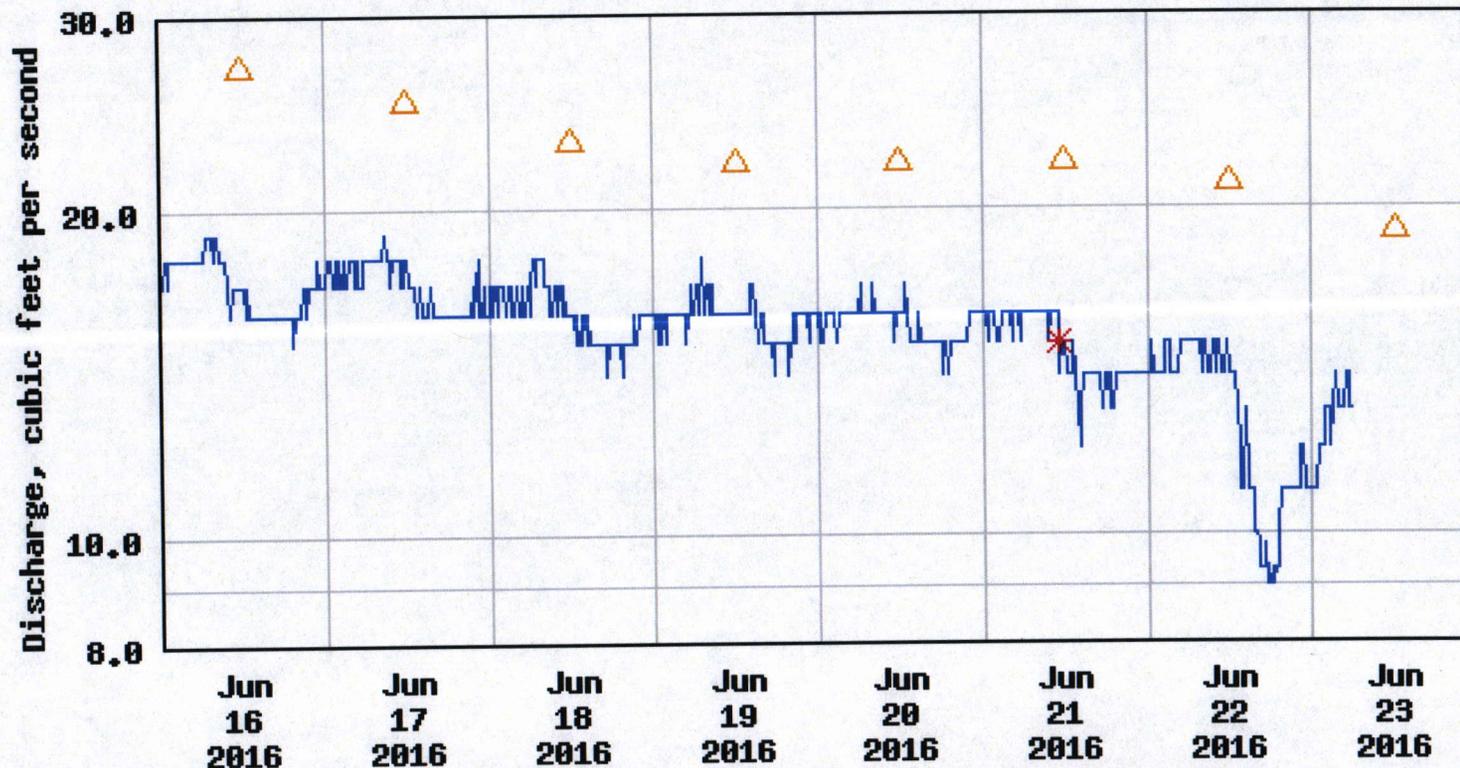

*Susan Odekirk*

Susan Odekirk  
Distribution Engineer

CC: Marc Stilson SE Regional Engineer  
Bob Davis, Price River Commissioner
