Re:      Commitment to participate in proposed Sevier River Automation Project under  
            WaterSMART Grant

Dear Mrs. Green:

This letter affirms our agency's commitment to participate in the proposed Sevier River Automation Project if funds become available, as is being requested, under a Bureau of Reclamation WaterSMART Grant. The Division will provide labor, associated travel and overhead costs for the planning and design of ten new telemetry stations and the installation of six of those new telemetry stations. We estimate the cost of our commitment to be \$20,000 over a two year period.

Sincerely,

Kent L. Jones, P.E.  
State Engineer  
Director Utah Division of Water Rights
