Salt Lake City, Utah  
Attention: Lee H. Sim

Dear Lee,

We are writing this letter in reference to water distribution problems we have had in the Indianola Irrigation Company the past few years.

We have tried to work these problems out within the company but have been unable to distribute the water and come to an agreement which is mutually satisfactory between those who flood irrigate and those who sprinkle.

We are, therefore requesting that the state appoint an Independent Water Commissioner to regulate the water in an unbiased manner between those using sprinkling systems and those who flood irrigate. We understand the state doesn't normally get involved with internal distribution problems within a water company but we have intentions of forming two separate irrigation companies in the near future.

We appreciate any assistance you could give us in the appointment of the above mentioned Water Commissioner prior to the upcoming water season.

Sincerely yours,
