

July 23, 1940

Dry Gulch Irrigation Company  
Roosevelt, Utah

Gentlemen:           RE: MONTEZ CREEK DISTRIBUTION.

Herewith you will find a copy of a letter of Samuel Snyder, addressed to this office on July 19, 1940 in which he complains that he cannot make diversion of the water he has appropriated from Montez creek. It appears, from Mr. Snyder's letter, that either your construction in Montez creek or your use of this stream has brought about the condition of which Mr. Snyder complains.

Will you be kind enough to give me a description of the condition of Montez creek at the point complained of, identifying the cause for the condition as it now exists. If possible, outline such a program as will be necessary to overcome the difficulties that exists. I will appreciate receiving your reply by return mail.

Yours very truly,

T. H. Humphreys,  
STATE ENGINEER.
