March 21, 2019

Spanish Fork River Distribution System Committee:

The following sessions are planned as part of training our new River Commissioner:

Date	Subject	Presenter(s)
March 26, 2019	Adjudication and Spanish Fork River Decrees	Sue Odekirk and Blake Bingham
April 9, 2019	Water Rights 102 with Spanish Fork River Distribution	Jared Manning
April 23, 2019	History of the Strawberry Valley Project	John Mendenhall
May 7, 2019	Diamond Fork/ CUP Water Rights/ 1991 Agreement	Devin Mckrolla/Rachel Musil
May 21, 2019	Daily Irrigation Operations	John Mendenhall/ Committee Members

We will be meeting every other Tuesday at Central Utah Water Conservancy District's field office in Mapleton. Representatives from Central, Spanish Fork City, and the Division of Water Rights are invited to attend these sessions. Distribution System Committee members are also welcome to join us for any session of interest.

I'm asking committee members to please come to the May 21st session on daily irrigation operations. I'd like each canal company to have 5 or 10 minutes to talk about their operations. What does the commissioner need to understand about your canal operations? Are there capacity or time limitations that impact ordering or deliveries? Whatever you feel the Commissioner needs to understand to best work with your canal company. These will be informal presentations intended to accommodate questions and discussion. Your participation will be valuable and appreciated.

Thank you in advance for your time and effort,
Sue Odekirk, P.E.

Spanish Fork River Distribution Engineer
