

2022 Water Commissioner Report

Lake Fork and Yellowstone Rivers & Sand Wash Creek

Leland L. Carter
Water Commissioner

2022 Water Commissioner Report

Lake Fork and Yellowstone Rivers
& Sand Wash Creek

Leland L. Carter
Water Commissioner

Yellowstone River on a very nice day.

Growing again after the burn by Lake Fork River Twin Potts

**Water Commissioner
Lake Fork & Yellowstone Rivers
P.O. Box 4 Roosevelt, Utah 84066**

Letter of Submittal to:

Honorable Judge: Samuel P. Chiara

Eighth Judicial Court of Duchesne County, State of Utah

United States Bureau of Indian Affairs

Uintah and Ouray Agency

Superintendent: Antonio C. Pingree

Messrs: Kenneth Asay department of irrigation

Board of Trustees of Associated Water Users

**Messrs: Rodger Ames, Kirk Christensen, Wayne Malnar,
Steve Hamburg, Tracy Killian, Dirk Oman,
Paul Smart**

Respectfully

Leland Leis Carter

Water Commissioner

AREA SERVED 2022

Acreages used in 2022 were those submitted on **the** Uintah Irrigation Project Duty Schedule, proof acreage was supplied for Associate Water Users.

DUTY OF WATER DELIVERYS

The Uintah Irrigation Project submitted two duty of water schedules (ref page 17, 18) for the Lake Fork River. USLF schedule started the irrigation season April 18 and ended September 13. The Redcap schedule started the irrigation season April 19 and ended September 30. All other water users on the Lake Fork System were on call for their water.

WATER SUPPLY

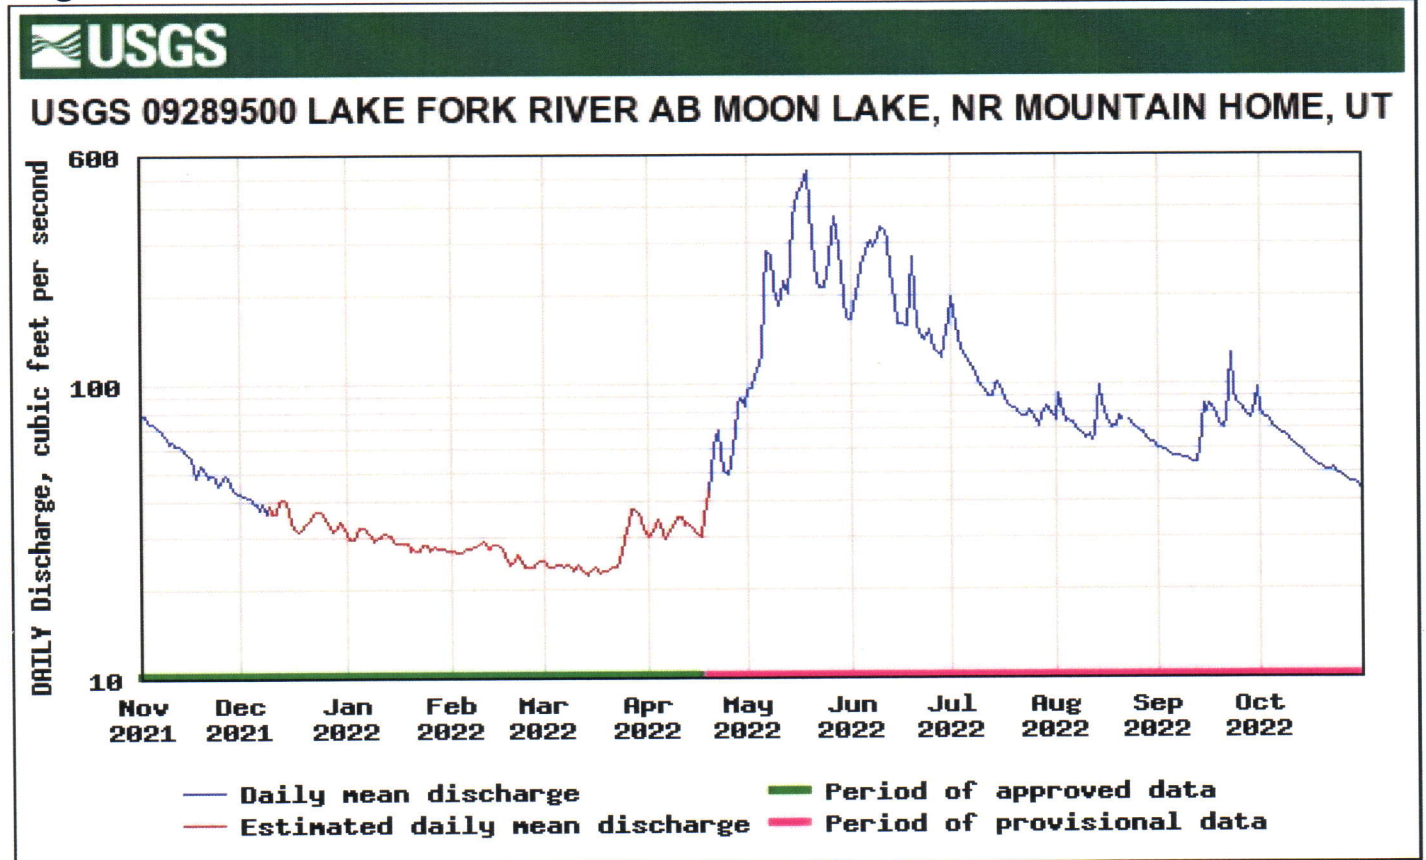

The 2022 water year was slightly below water year average. Snowpack (ref page 13-16) started good in first part of winter but middle and latter snowpack did not increase as normal as snotel site indicated. Rain thru the season helped water flow. These rains were slight in Lake Fork River Basin but higher in Yellowstone River Basin as indicated by Usgs sites (ref page 10,11). Lake Fork River and Yellowstone River each had less than 500 cubic feet per second flows at peak flows which is below normal. 2020 fire still caused mud slides into rivers and Farnsworth Twin Potts canal had a lot of clean up. Most associate water users had used their water supply by the middle of August, while some associate users went thru September. Associate users averaged about two acre feet for the year. The Uintah Irrigation Project delivered was 3 acre feet with Redcap delivered 3.09 acre feet. All Uintah Irrigation project and Associate Company deliveries are itemized for each day and total acre feet are included in the pages 19 thru 55.

Sand Wash Creek

The flows to Sand Wash Creek did meet Sand Wash Irrigation needs. Dry Gulch and Moon Lake Water Users were according to water rights.

Sand Wash Creek had a total flow of 2016.41 acre ft. for the period of March 1 to October 31.

Sand Wash Irrigation Company received their full amount of water as directed by the court.

Summary of Sand Wash Creek Appropriations

Appropriator	Diverted Acre Ft.
Brandon Hartman	109.27
Gordon Hanson Family	71.97
Sand Wash Irrigation Co.	2084.7

Water delivered to tertiary water companies

Crystal Ditch is undergoing changes that require Utah State Water Rights Division to decide appropriate management and delivery of water for their water rights.
