Susan,

I have had a chance to review the plans for this project this morning and I am OK with the proposal to change the diversion point and also the irrigation plans. Please proceed.

Thanks,
Dan Clark
Construction Manager

I have received the letter from Chrisitan Michaelson, P.E. with Great Basin Engineering, INC. I will review the attached plans, but I cannot respond within 3 days. Our construction coordinator is out of the office until Monday and any construction plans involving facilities owned by Utah State Parks and Recreation must be reviewed by him. His name is Dan Clark. His office phone is 801-538-7311. I cannot provided a response time

at this point because Dan is not here to give one. I agree that your project does indeed look beneficial to the park and I'm sure Steve Hirschi would agree. However, I cannot speak from a technical/construction perspective, I will need to leave that to Dan. If you have any questions, please contact me.

Thanks,
