Subject: Pahvant valley water management plan
To: <waterrights@utah.gov>

I am writing in my two cents on the previous water management plan meeting. I grew up hunting Clear Lake Waterfowl Management Area, a spring fed wetland that had water as far as the eye could see. Clear Lake is gone now and it is a tragedy. Unregulated pumping of the aquifer and drought has robbed not only me and my family of that magical place but every single public land owner and hunter in the state. Flowell is nothing but a den of thieves over pumping and stealing water from everyone. There needs to be monitoring, regulation and prosecution of these men and women who have gone unchecked for decades stealing this precious resource. There needs to be a minimum flow for Clear Lake Waterfowl Management Area! These people are stealing from me and everyone who loves and uses public WMA's and we want it stopped! Prosecute those water thieves and establish a minimum sustainable flow for Clear Lake. Stop turning a blind eye to the good old boys club and save this miracle in the desert.
