Dear Mr. Jones:

I have spoken to many Beaver County citizens and their feelings remain opposed to the Central Iron County Water Conservancy District applications to remove water from under Beaver County.

Applications #A76675: A76676 and A76677, which were heavily and formally protested at an earlier date.

We believe this water will be needed greatly by Beaver County residents themselves in the very near future and should not be given to others.

Thank you for your time:

D. Carol McCulley
