ALL owners of record must sign this affidavit. Co-owners of water rights based on shares or exchanges may include irrigation, pipeline or reservoir companies. Please confirm by referencing the signatures on the application, by visiting www.waterrights.utah.gov > search > water right number > ownership section or call 801-538-7240 for assistance. All signatures must be notarized.

INSTRUCTIONS FOR COMPLETING AFFIDAVIT OF BENEFICIAL USE OF WATER

The information you provide in this affidavit will establish the legal limits of your water right. Please take the time to carefully read these instructions. Each paragraph below corresponds to the item number on the affidavit form.

1. Your Water Right Number consists of a two-digit area code followed by a serial number. Example: 17-3256. The proof due date is the date by which your proof must be submitted. If this date has passed when you submit the affidavit your application has lapsed. In this case must request that your application be reinstated.
2. The Division of Water Rights records must show you as the owner in order for you to submit an affidavit on your water right. If you have recently acquired title to this water right, you may need to submit a Report of Conveyance to update our records. Also, please provide a current mailing address and phone number(s).
3. Check the box that shows whether the residence associated with this water right is used full- or part-time. Please provide the street address of this residence. Note that this item is specifically asking for the street address of the residence associated with this water right which may or may not be the same as your current mailing address shown in (2).
4. A plat map is a mandatory part of the proof affidavit for your water right. A copy of a plat map showing the property where this water right is located can be obtained from the Recorder's Office of the county where the property is located. If the well or spring providing water under this water right is located some distance from the property a second plat map showing this location may have to be provided. The subdivision name and lot number (if applicable) and the Tax ID or Serial Number of the parcel can usually be found on the plat map. If not, this information can be obtained from the County Recorder's Office. Using a permanent, dark-colored pen clearly distinguish the parcel on the plat map where the residence is located. Also, mark and label the approximate location of the well or spring. The plat map may need to be produced on an 11 by 17 inch piece of paper (or larger) in order to show sufficient detail.
5. Indicate the city, county, or other municipality that issued the Certificate of Occupancy and the date it was issued. A copy of a Certificate of Occupancy must be included as part of proof on your water right. It can usually be obtained from the municipality who issued it.
6. Indicate the irrigated area including lawn, garden, and irrigated landscaping features such as shrubs and trees. Note that this area is smaller than the total lot size because it does not include the footprint of the home, driveway, sidewalks, or other non-irrigated areas. Areas in square feet can be converted to acres by dividing by 43,560. Example: 10,890 square feet / 43,560 = 0.25 acre.
7. Indicate the number and type of livestock provided for by this water right. Stock watering use on the certificate we issue to you will be expressed in equivalent livestock units (elu). One cow or horse equals one elu. Five medium-sized animals such as sheep, goats, and pigs are considered to be equal to 1 elu. There are conversion factors for other animals, as well. Domestic animals such as dogs and cats are not considered to be livestock. Example: 2 horses, 4 cows, and 10 sheep. (This equates to 8 elu.)

This proof affidavit must be signed and notarized in order to be valid. There is room on the form for two owners to sign. If there are additional owners, an additional signature page must be attached. Each signature must be notarized separately. For additional information on how to complete the proof affidavit visit our website at <http://www.waterrights.utah.gov>.

ALL owners of record must sign this affidavit. Co-owners of water rights based on shares or exchanges may include irrigation, pipeline or reservoir companies. Please confirm by referencing the signatures on the application, by visiting www.waterrights.utah.gov > search > water right number > ownership section or call 801-538-7467 for assistance. All signatures must be notarized.

MAP OF BENEFICIAL USE

Name of Applicant(s): _____

Water Right Number: _____

Tax ID or Serial Number of Parcel: _____

INSTRUCTIONS FOR COMPLETING THE MAP OF BENEFICIAL USE

- 1) You may use this form to create your map or you may use a blank sheet of paper that is at least 8 ½ inches by 11 inches in size.
- 2) If you use your own form make sure that the map is labeled “Map of Beneficial Use.” The map must include the applicant’s name, water right number, and the Tax ID or Serial Number of the parcel.
- 3) Draw the boundaries of the land parcel.
- 4) Label any adjacent roads and show a North Arrow on the map.
- 5) Draw and label the residence on this parcel that is associated with this water right.
- 6) Draw and label any area on the parcel where livestock under this water right are kept or grazed.
- 7) Draw any outbuildings, driveways, walkways, and other non-irrigated areas located on this parcel.
- 8) Draw all irrigated areas on this parcel receiving water under this water right. The interior and exterior boundaries of the irrigated area should be hachured.
- 9) Draw and label the well or spring providing water under this water right. Show on the map the distance from the well or spring to two different property corners.
- 10) If the well or spring is not located on this parcel provide a separate map showing the parcel of land where the well or spring is located. The Tax ID or Serial Number of that parcel and the distance from two property corners to the well or spring must be shown on the map.
